## EXPERIENCE

### Junior Web Developer

Sep 2024 - Nov 2024

*Jai Jinendra Solutions*

*Remote*

- Developed dynamic and responsive interfaces using **HTML**, **CSS**, and **JavaScript**, improving user experience.
- Designed backend systems with **CodeIgniter** and integrated **PHP** with **MySQL** for efficient data management.
- Implemented **secure user authentication** and optimized database queries, enhancing app performance and security.
- Collaborated with the team to resolve issues, ensuring timely and successful deployment of a scalable web application.

### Web Developer Internship

Jan 2021 - May 2021

*Wish Abroad*

*Hyderabad, IN*

- Designed and developed responsive web pages using HTML and CSS, ensuring cross-browser compatibility.
- Integrated interactive features with JavaScript, enhancing website engagement and user experience.
- Contributed to backend development tasks using PHP, improving site performance and reducing load times.
- Collaborated effectively with the team, sharing innovative ideas and strengthening full-stack development skills.

## PROJECTS

### SameerCart – Full-Featured eCommerce Application

[Source Code](#) | [Live Link](#)

**Tech Stack:** *ReactJs, TailwindCss, ShadCN, NodeJs, ExpressJS, MongoDB, Razorpay*

- Developed **secure user authentication** and integrated **Razorpay payment gateway** for smooth, secure transactions.
- Designed and implemented **product browsing**, **search functionality**, and **shopping cart** for an intuitive shopping experience.
- Built a comprehensive **admin panel** for managing users, products, orders, and content, streamlining site administration.

### BlogSphere – Full-Stack Blogging Platform

[Source Code](#) | [Live Link](#)

**Tech Stack:** *ReactJs, TailwindCss, ShadCN, NodeJs, ExpressJS, MongoDB, Redux*

- Developed a full-stack blogging platform with **public-facing pages** including Blogs, Blog Details, Categories, and Contact Us.
- Implemented **user roles** (Admin, Moderator, Writer) with **admin-controlled role assignment** and content moderation features.
- Built a **blog lifecycle management system** allowing for draft, review, revision, and publication processes.
- Created a **fully responsive UI/UX**, enhancing user experience across devices and enabling smooth collaboration for content teams.

### MsCut URL Shortener

[Source Code](#) | [Live Link](#)

**Tech Stack:** *ReactJs, TailwindCss, ShadCN, NodeJs, ExpressJS, MongoDB*

- Developed a URL shortening platform with **JWT-based authentication**, **QR code generation**, and **click analytics**.
- Built a user-friendly **dashboard** for managing links with real-time analytics and sharing features.
- Ensured a **responsive UI** optimized for mobile and desktop using **TailwindCSS** and **React**.
