EXPERIENCE

Junior Web Developer - Part Time   Sep. 2024 – Nov. 2024
Jai Jinendra Solutions   *Remote*

- Maintained responsive websites using **HTML**, **CSS**, and **JavaScript**, ensuring compatibility across different browsers and devices.
- Contributed to backend development in **CodeIgniter (PHP)** by creating dynamic content modules and improving data-driven features.
- Collaborated remotely with senior developers to align code quality with client requirements.

Web Developer Intern   Jan 2021 – May 2021
Wish Abroad   *Hyderabad, IN*

- Built responsive web pages using **HTML5** and **CSS3**, following modern design practices.
- Developed server-side functionality in **PHP** and **MySQL**, including secure login authentication and contact forms.

PROJECTS

SameerCart – Full-Stack E-commerce Platform   Live Demo | Code

- Developed a complete e-commerce platform supporting product browsing, shopping cart, and checkout flows.
- Integrated **Razorpay** for secure online payments with error handling and order confirmation tracking.
- Implemented **JWT & OAuth-based authentication** with session persistence for secure user access.
- Built an **admin dashboard** for product, order, blog, and user management, enabling smooth backend operations.

BlogSphere – Role-Based Blogging Platform   Live Demo | Code

- Designed and developed a blogging application with **role-based permissions (Admin, Moderator, Writer).**
- Created a structured publishing pipeline: Draft → Review → Revision → Publish to simulate real-world editorial workflow.
- Built **Admin**, **Moderator**, and **Writer dashboards** for managing content, categories, and user roles.
- Developed responsive public pages with an inquiry system to encourage user interaction.

MsCut – URL Shortener with Analytics & QR Generator   Live Demo | Code

- Built a URL shortener application allowing users to generate custom aliases for links.
- Added **QR code generation and analytics** to provide insights into link usage and click counts.
- Implemented secure login with **JWT authentication and session persistence.**
- Designed a **mobile-first UI** in React.js and Tailwind CSS for a seamless experience across devices.

AI Code Review – AI-Powered Code Analysis Tool   Live Demo | Code

- Created an **AI-driven** platform that reviews code for syntax, logic, and best practices.
- Integrated **Gemini AI** API to provide real-time suggestions for performance, readability, and maintainability improvements.
- Built backend APIs in **Node.js/Express.js** to handle code input and deliver **AI-generated feedback**.
- Deployed a responsive front-end that provides an intuitive interface for developers to submit and review code.

EDUCATION

Visionary Degree College   Hyderabad, IN
Bachelor of Computer Applications (BCA)   *Jul. 2022 – Jun. 2025*
