Frameworks/Libraries: MongoDB, Express.js, React.js, Node.js, Redux, Bootstrap, Tailwind, ShadCn, Material UI.
Developer Tools: Git, Docker, VS Code, Npm, Postman, Chrome DevTools, Linux.

EXPERIENCE

Junior Web Developer - Part Time   Sep. 2024 – Nov. 2024
Jai Jinendra Solutions   *Remote*

- Collaboration with a team of developers to build responsive web pages using **HTML**, **CSS**, **JavaScript**, ensuring layout consistency across major browsers.
- Contributed to backend development using **CodeIgniter**, implementing dynamic content features to improve data consistency and rendering.
- Assisted in fixing common UI issues and adding form validation to enhance input accuracy and streamline user interactions.

Web Developer - Internship   Jan. 2021 – May. 2021
Wish Abroad   *Hyderabad, IN*

- Practiced core web development skills by building static pages with **HTML5/CSS3**, focusing on structure, semantic tags, and responsive layout techniques.
- Implemented server-side logic in **PHP** and used **MySQL** for features like contact forms and login authentication.

PROJECTS

SameerCart | *React.js, Node.js, Express.js, MongoDB, Tailwind CSS, Razorpay*   Live Demo | Code

- Developed a fully responsive e-commerce platform with **product browsing**, **search**, **cart**, **checkout** workflows.
- Implemented secure **authentication and authorization** including OAuth, password reset, and session persistence.
- Integrated **Razorpay** for real-time, secure payments with confirmation feedback and error handling.
- Built an **admin dashboard** for managing users, products, orders, and blogs with live updates.
- Enabled end-to-end **order tracking** and ensured consistent performance across mobile and desktop devices.

BlogSphere | *React.js, Node.js, Express.js, MongoDB, Tailwind CSS*   Live Demo | Code

- Developed a collaborative blogging platform with **role-based access control**, supporting Admin, Moderator, and Writer roles.
- Implemented a structured content workflow including **Draft**, **Review**, **Revision**, and **publish** stages with moderation tools.
- Built an **admin dashboard** for user role assignment, content moderation, and category management.
- Designed fully responsive, public-facing pages (Home, Blogs, Categories, Contact) with an integrated inquiry system.
- Focused on clean UI/UX and scalable architecture to support dynamic content teams

MsCut | *React.js, Tailwind CSS, ShadCN, Node.js, Express.js, MongoDB*   Live Demo | Code

- Built a URL Shortener with support for **custom aliases**, **QR code generation**, and real-time click analytics.
- Implemented secure user authentication with **persistent sessions** and JWT-based access control.
- Developed a user dashboard to manage links and display detailed analytics by device, location, and timestamp.
- Integrated **QR Code** and clipboard functionality for seamless sharing and downloads.
- Designed a fully responsive, mobile-first interface for enhanced device accessibility.

EDUCATION

Visionary Degree College   Hyderabad, IN
Bachelor of Computer Applications (BCA)   *July. 2020 – June. 2025*
